ACTS OF KINDNESS CHALLENGE

This month and every month, we're all about showing our appreciation for those around us. And with World Kindness Day coming up on Saturday, November 13th, there's no better time to challenge yourself to be extra kind than right now! Our Acts of Kindness Challenge below is a great place to start, but you should never stop paying it forward – who knows, you might just make someone's day!

No matter which option you choose for this activity, the goal is the same: complete enough acts of kindness to build Snoopy's doghouse!

OPTION 1: COLOR IT IN!

Supplies

- Your favorite coloring utensils: colored pencils, crayons, markers, or anything else you have up your sleeve!

Instructions

1. On the next page, you'll see a blank version of Snoopy's doghouse.
2. Decorate Snoopy's house with acts of kindness! Every time you complete an act of kindness, fill in one of the panels of Snoopy's house with what you did and who you did it for, and then color it in and decorate it however you choose!
3. Keep going, and soon Snoopy will have a beautiful home and you will have made the world a kinder place in the process!

OPTION 2: BUILD IT UP!

Supplies

- Popsicle sticks, or another similar material that can be stacked and written on
- Writing and/or coloring utensils of your choice: pencils, pens, crayons, markers, and beyond!

Instructions

1. Want something a bit more hands on? You can also build Snoopy's doghouse – or anything else of your choosing – with popsicle sticks or a similar material!
2. Every time you complete an act of kindness, write what you did and who you did it for on a blank popsicle stick. You can also color in the stick or decorate it to your heart's content!
3. Stack the popsicle sticks on top of each other to build whatever you want! You can build something 3D or 2D if you'd prefer. Remember that you can cut popsicle sticks to different lengths to help you make different shapes – just be careful of splinters!

ACTS OF KINDNESS CHALLENGE

Prompts

Do you have so much kindness to give and are wondering where to even start? Try following one of the below prompts for inspiration.

- Do something kind for your parent/guardian
- Do something kind for your teacher
- Do something kind for your friend
- Do something kind for your neighbor
- Do something kind for your community
- Do something kind for your best animal friend
- Do something kind for someone you look up to
- Do something kind for an elder
- Do something kind anonymously
- Do something kind for a classmate

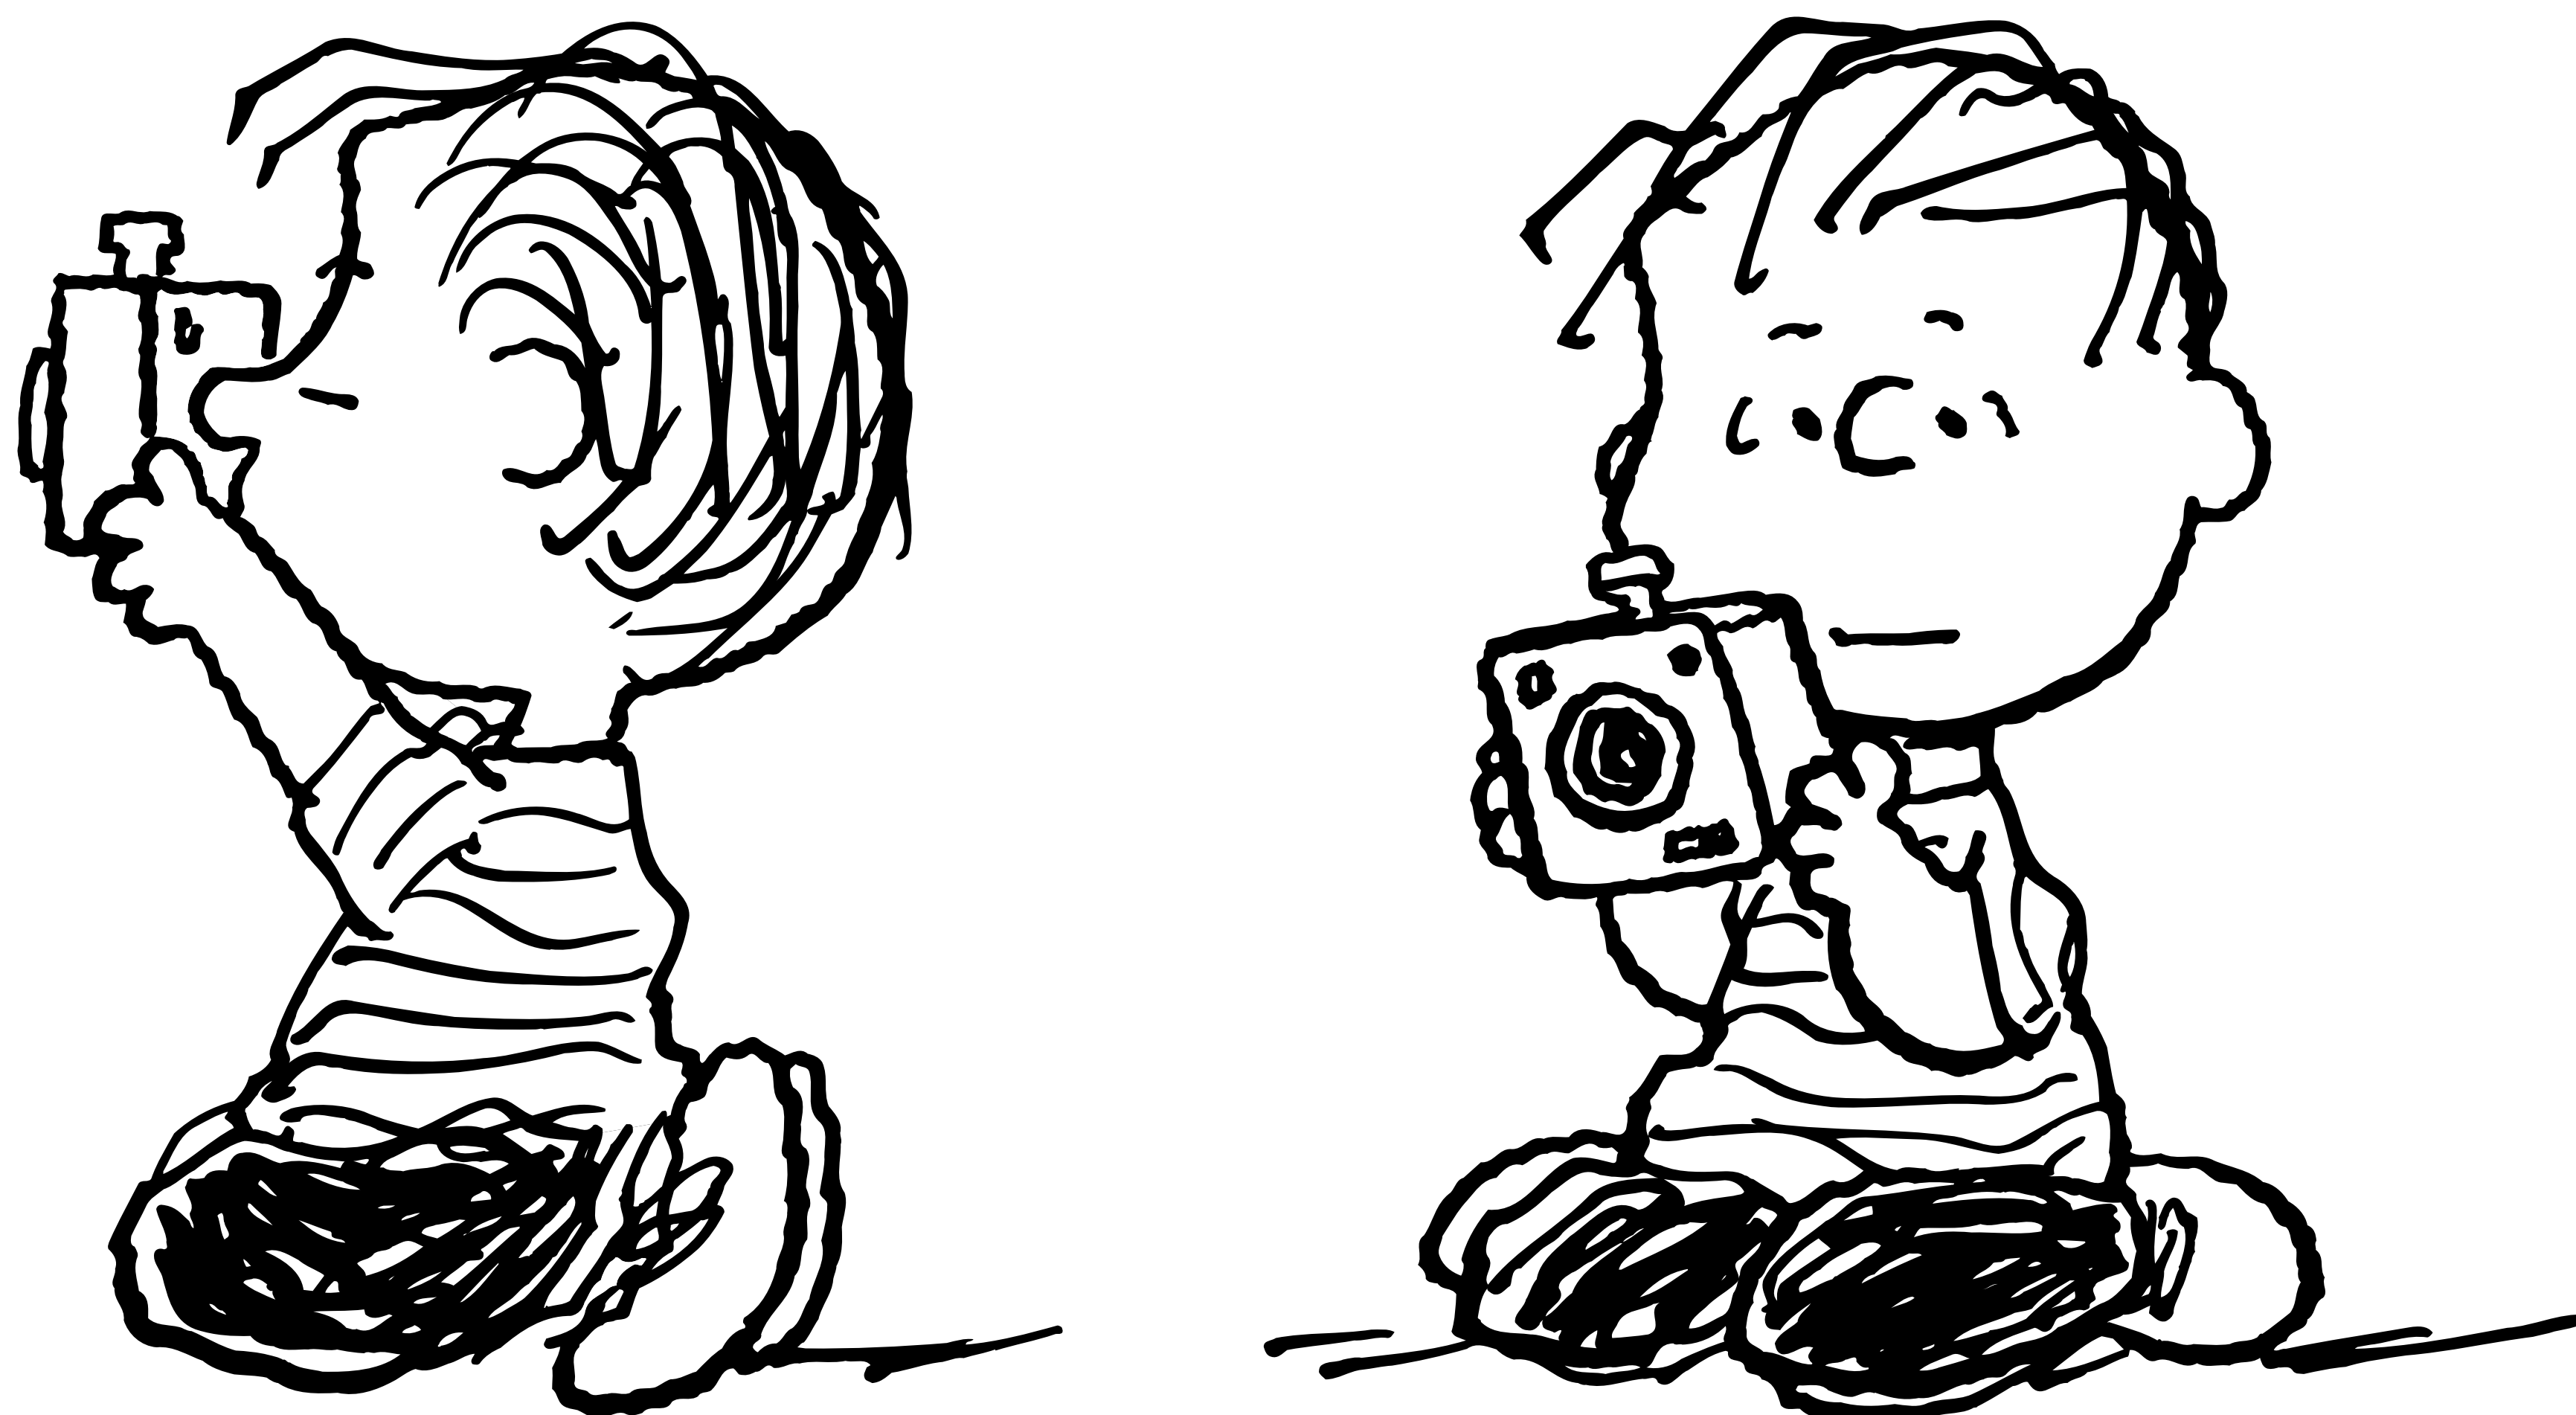

DIY PHOTO FRAME GIFT

Popsicle sticks can come in handy for tons of fun DIY crafts, including this photo frame! The perfect gift for your loved ones, a DIY popsicle stick photo frame is a great way to show how much you care.

Supplies

- Popsicle sticks
- Cardboard
- Glue
- Scissors
- Coloring utensils
- Any other decorating supplies
- A printed photo, to put in the frame!

Instructions

1. To begin making your frame, first gather your popsicle sticks. What shape do you want your frame to be? A good start is a basic square, so arrange your popsicle sticks to make a square and be sure the corners overlap so you'll have a place to glue them together. You can also make a thicker square by laying two popsicle sticks next to each other on each side, or make more complicated designs by cutting your popsicle sticks into different lengths and arranging them however you like – just be sure you'll have places to glue them all together in the end!
2. Once you've decided on the shape of your frame and have laid your sticks out to be sure it will work, you can begin decorating! Start by coloring or painting your sticks, or draw cool designs on them. You can also take this time to color in and cut out the Peanuts characters on the next page. We'll add these to our photo frame design later!
3. Now, it's time to glue your frame together! Arrange your sticks back in the design you made before, and glue the overlapping parts together so your frame is nice and sturdy.
4. Want to decorate your frame even further? Once it's all glued together, you can add other materials to your frame, such as buttons, sequins, pipe cleaners, and of course the Peanuts cutouts on the next page!
5. To make a backing for your frame, take a piece of cardboard and place your frame on top of it. Trace the outline of your frame, and then remove it. Now, draw an outline about 4-5 millimeters inside of that, and cut it out along that line. This way, your backing won't poke out beyond your frame, but the backing will still be big enough to glue your frame to.
6. Cut your photo to the size of the cardboard backing, if it's too big. If it's smaller than the cardboard, that's okay too! You can decorate any extra cardboard that's showing around the photo to make it even prettier if you want. Glue your photo to your cardboard, and then glue your frame on top of that, and you're all set! You might want to glue a ribbon or string loop to the back to hang your photo frame, or you can leave it as is and prop it up against something to display it.
7. You did it! Now comes the best part: spreading kindness by giving your gift to someone you love.
